*These settings are recommended, you may need to conduct your own tests.

All technical information and recommendations are based on tests we have conducted.

Users should conduct their own tests before proceeding.

**NOTES**

- **Recommended Fabrics**
  - White or Light Colored
  - 100% cotton
  - 100% polyester
  - Poly/cotton blends
  - Polyester knits
  - Polyester mesh
  - Poly/foam & cotton caps
  - Satin

- **Accessories Required**
  - Computer, Color Laser Printer, Heat Press.

- **Printable side**
  - The printable side (white matte coated side) without the red lettering.

- **Pressure Settings**
  - To ensure that the coating has properly fused with the fabric, we recommend to use maximum pressure. If this paper is applied with inadequate pressure, the transfer will not wash well.

- **Peeling**
  - Wait 4-8 seconds after pressing before you peel. Gently tug along either side of the image, this will soften the feel of the transfer on the shirt.

- **MousePads**
  - For mouse pads use medium pressure and press at 380F for 15 seconds and peel hot.

- **Care Instructions**
  - Wait 24 hours before washing.
  - Machine wash using mild detergent.
  - Do not use bleach or other aggressive cleaning agents. Cannot be dry cleaned. Wash Temperature cannot exceed 105F.

- **Storage**
  - Keep away from direct heat, sunlight and humidity.
